# Compact and powerful

**FFS have proven their ability as specialist in this field and enjoy increasing attention from a fast growing number of clients.**

From gained experience in supplying complex solutions for the marine industry, where the space for equipment is severely limited, and making use of our broad in-house engineering know-how, we have made a successful transition to land-based equipment that leads to compact units with high volumes applications.

**Mobile and easily transportable pump units (on skids, trailers, or containers) and fierce power are our brand's key distinctive features.**

Pump skids, submersible pumps, hoses, trucks, deployment and retrieval pods, hose reels, trailers, the FFS Ton Cannon (22,000 GPM foam/water monitor), foam pumps and the FFS 12,000 GPM water/foam monitors.

## Introduction

Easily configured to meet the IP voice Paging, background music (BGM) and message requirements of large shopping centers, building. Its cost-effective system architecture uses a network topology, which allows system units to be located at any point on the network **without Server Controller**. Future expansion without major restructuring is possible.

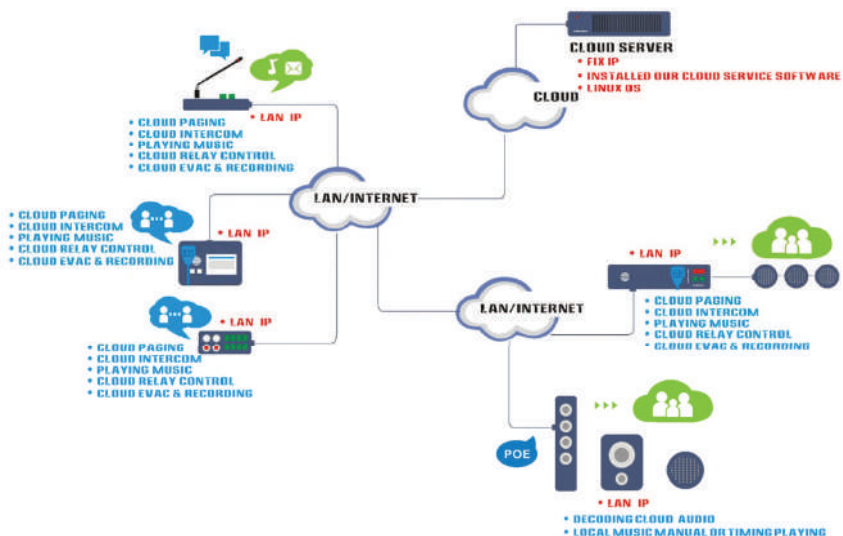

## Voice Evacuation System Integrated with Fire Detection

### Design and integration

We take everything into consideration – the existing infrastructure, the acoustics, the training requirements – and create a custom solution that addresses all the relevant issues.

For public address systems, we have the know how to support a very wide range of applications, from Building, cruise ships to public transportation terminals and airports.

## About Worldex G.E.C.

WORLDDEX GROUP OF COMPANIES has been operating since 1985, more than 30 years in cooperation with trade fair organizers around-the-world, being the biggest representative of international trade organizers in Asia and Europe to handle trade fairs and exhibitions worldwide. Moreover, we has affiliated companies and alliances in China, India, ASEAN region, and Europe.

Working closely with most of trade associations in Thailand, Worldex has played a linkage role to bind the associations and their members to the international market environment.

In addition, Worldex G.E.C. is one of the leading business events in Thailand including trade fair, seminar and special event, either as a show owner or co-organizer.

The company has sustained continuous success in running trade fairs and exhibitions both internationally and domestically.

For more information, please visit [www.worldexgroup.com](http://www.worldexgroup.com)

## **Mr Hubert Duh**

Managing Director, Messe Frankfurt New Era Business Media Ltd.

---

A warm welcome to the 7<sup>th</sup> edition of Secutech Thailand.

The fair is always a special occasion in the security industry calendar, however this year in particular we have much to celebrate.

The launch of the inaugural 'Smart City Solutions Week' combines the resources of Secutech Thailand, Thailand Lighting Fair, and Thailand Building Fair to deliver a truly compressive sourcing destination for smart city professionals. Held for the first time alongside Digital Thailand Big Bang, the respective shows provide a wide array of procurement and business opportunities.

Thanks to visitor synergies between the four fairs, we are expecting a record number of system integrators, project owners, distributors, and government stakeholders to visit Secutech Thailand during its four day run – exceeding last years' total of 8,420.

As a one-stop business destination for safety, security and fire solutions, the fair helps channel players find specialised products in the expanding IoT ecosystem. Among many factors driving industry growth is the rising number of smart city projects, which has contributed to record exhibitor participation at this year's show – up 4% from last year to over 280 brands.

Across 7,500 sqm of exhibition space, the fair showcases the most relevant solutions for the smart city and smart living sectors, including surveillance systems, intelligent video analytics, access control solutions, biometric identification systems and much more. The fairground also houses four international pavilions. The returning Singapore Pavilion is joined by three new pavilions: the Zhejiang Smart City Pavilion, the Korea Fire Institute Pavilion and the Taiwan Pavilion.

My thanks go to our local partner Worldex G.E.C, who have been instrumental in helping deliver another successful edition of the show. I would also like to thank all participants and industry associations for supporting the fair. I wish you all a successful time of business at Secutech Thailand 2019!

**Ms Kerstin Horaczek**

Group Show Director, Messe Frankfurt  
Exhibition GmbH

On behalf of Messe Frankfurt, welcome to another trend setting edition of Secutech Thailand!

Security is widely recognised as the bedrock of prosperous societies, which is why demand for security solutions continues to grow around the world. Facilitating business and aiding industry growth, Messe Frankfurt's cluster of trade fairs and events for the safety, security and fire sectors is expanding globally.

Here in Bangkok, Secutech Thailand continues to grow in prominence, reaching a new record for exhibitor participation this year. Across 7,500 sqm of exhibition space, more than 280 exhibitors are showcasing effective solutions to local challenges

Across Thailand, new IoT solutions are being implemented not just for security and policing, but also for traffic, waste and building management. To help you find business in these markets, Secutech Thailand's concurrent SMALiving and Smart City Solution

events provide dedicated sourcing platforms for in-demand products, including access control solutions, IP cameras, license plate recognition systems, waste management solutions and more.

In addition, the concurrent Fire & Safety Thailand event is returning for its 7th year. Addressing the need to meet strict Fire & Safety regulations in high-rise buildings and industrial areas, the event is a one-stop location to source extinguishing systems, alarms, personal protection equipment and more.

On top of its many sourcing opportunities, this year's fair also offers visitors a host of market intelligence through its concurrent events. Among many highlights is the Smart Factory Conference, which provides information on automation and security technologies for the era of Industry 4.0.

From distributors and system integrators to consultants and end users, last year the fair achieved a record turnout, attracting 8,420 trade visitors from ASEAN and beyond. In mind of the warm market conditions and the expanding IoT ecosystem, we are once again anticipating another strong turnout at this 7th edition.

On behalf of Messe Frankfurt, I wish you a productive time of business at the show.

**Mr. Nikom Lertmalligaporn**

President of Worldex G.E.C.

---

On behalf of Worldex GEC, I would like to welcome you all to the 2019 edition of Secutech Thailand. I am delighted to work with Messe Frankfurt New Era to co-organize this arousing exhibition Secutech Thailand 2019 which runs under the theme “Security + AI – Empowers Sustainable City Development”, the key phase for this edition.

The recent focus on smart cities in the country is all part of the government's Thailand 4.0 initiative. Thailand 4.0 is a new economic model that aims to transform Thailand into a high-income nation. Thailand have identified 10 S-curve industries that will propel the country to become a developed nation. The S-curve industries are divided into two categories – S-curve and New S-curve. As a leading industry event in the region, we strive to build smart and safety city development's awareness in Thailand. By collaborating with local authorities, leading local, ASEAN partners and international experts, the fair will be severally presenting the latest technology in many themes including Security, Fire & Safety, Smart Home

and Building.

In addition to the theme zone, “Security + AI – Empowers Sustainable City Development”. Gathering leading brands to showcase security and AI innovations such as feasible business models, commercialized solutions, tangible applications and case studies, Secutech Thailand 2019 helps you build new partner networks and master the growing vertical markets of smart and safe cities development.

Beside the significant seminar, issues related to Fire&Safety will also be addressed. Top management and experts from overseas and locals will gather to visit and attend Fire&Safety during the show dates. To embrace disruptive technologies promises to deliver differentiating capabilities in terms of operational enhancement and cost reduction for Industry 4.0 development, Smart Factory Conference will be also be addressed.

In closing, I would like to express my grateful thanks to all the exhibitors and visitors again for your contribution and support to the great success of the International Trade Show. I wish all of you have a fruitful journey and achieve your business goal both during and after at the Secutech Thailand 2019!

The 7<sup>th</sup> Edition of Secutech Thailand is held on 28<sup>th</sup> – 31<sup>st</sup> October 2019, providing a platform for industry professionals in security, Fire & Safety and smart factory & building to contribute in the development of smart & safe cities. Concurrently held with Digital Thailand Big Bang, Thailand Lighting Fair, and Thailand Building Fair to offer visitors a 1-stop area for smart city developments.

### Thailand Convention & Exhibition Bureau (TCEB)

On behalf of Thailand Convention & Exhibition Bureau (TCEB), it is my great pleasure to welcome you to Secutech Thailand 2019, will be held under the theme of 'Security + AI – Empowers Sustainable City Development', 28 – 31 October 2019, at hall 104, the Bangkok International Trade and Exhibition Center, Bangkok.

Thailand Convention & Exhibition Bureau or TCEB is a public organization that reports itself directly and under direct supervision of Thailand's Prime Minister Office. So in a way, we are also considered as government agency. Our core missions are to promote, support, and develop MICE industry in Thailand with the ultimate aim of making Thailand one of the preferred MICE destinations in Asia.

With a special focus on security solutions for intelligent security, fire & safety, smart living, and info security, Secutech Thailand is widely recognized as a must-attend trade fair for security industry professionals from across the ASEAN region. Owing to its wide ranging coverage of all things security, the show has experienced steady year-on-year growth since its first edition in 2011.

Therefore, TCEB is proud to support Secutech Thailand 2019, so as to bring businesses and social wellbeing to Thailand and Southeast Asian countries.

We are delighted that Secutech Thailand 2019 will help to create a regional business hub for all of the most important innovations to be showcased, particularly with regards to digital solutions for the smart city sector. I sincerely hope you will enjoy exhibition today and conference program over the next three days.

Welcome each of you to Secutech Thailand 2019!

A handwritten signature in blue ink, appearing to read 'Chiruit Isarangkun Na Ayuthaya'.

**Mr. Chiruit Isarangkun Na Ayuthaya**

President

Thailand Convention & Exhibition Bureau (Public Organization)

## Artificial Intelligence Association of Thailand

On behalf of Artificial Intelligence Association of Thailand (AIAT), it is a pleasure to invite you to join Secutech Thailand 2019, which took place from 28<sup>th</sup> – 31<sup>st</sup> October 2019 at Hall 104, the Bangkok International Trade & Exhibition Centre.

The Artificial Intelligence Association of Thailand (AIAT) is the leading voluntary research community in Artificial intelligence fields of study in Thailand. As the largest nonprofit support of Artificial Intelligence's research in Thailand, the Association is committed to accelerating the global and local progress of new Artificial Intelligence innovation, implementation, and development.

In a reflection of the growing role that AI powered security technology is playing in Thailand's smart city landscape, the 2019 edition of Secutech Thailand will be held under the theme of 'Security + AI – Empowers Sustainable City Development'. Four key vertical markets set to be highlighted under this theme include 'Smart Police', 'Smart Transportation', 'Smart Factory' and 'Smart Campus'.

Hope that you will find the exhibition and your stay in Bangkok both valuable and enjoyable.

---

**Professor Dr. Thanaruk Theeramunkong**  
President of Artificial Intelligence Association of Thailand

### Asia Pacific Security Association

I am pleased to present APSA and Secutech Thailand 2019 bringing "Security + AI – Empowers Sustainable City Development"

Since its inception the Asia Pacific Security Association (APSA) has propelled itself as the leading professional association in the Asia region. APSA captivates an ever increasing enthusiasm through remarkable achievements, thanks to the candid unity and co-operation among its Chapter Associations namely, Thailand, India, Nepal, Philippines, Singapore, Malaysia, South Korea, Japan, Indonesia, China, Hong Kong, Macau and Vietnam. The formation of APSA today is seen as an impetus for further developments in the Protection Industry, and most importantly, its program for the benefit of safety and security sectors in Asia also promoted and support The Smart Police station project in Thailand in term of used technology to help to suppression of crime. Such as using face recognition technology and link to the data base from criminal records division to enhance Thai police becomes a smart police in Thailand 4.0 era.

We look forward to welcoming you to Secutech Thailand 2019 and sincerely hope that this show will deliver all a very successful experience of networking and business opportunities that will be generated from taking part in this show.

A handwritten signature in blue ink, likely belonging to Dr. Vallop Kingchansilp.

**Dr. Vallop Kingchansilp**

International President of Asia Pacific Security Association

## Building Inspectors Association (BSA)

On behalf of The Building Inspectors Association (BSA) , I would like to welcome all participants to the region's most important security and Fire & Safety exhibition.

Thailand is quickly developing its regulations and safety standards for building safety. It is consequently a huge market security and safety technology, especially with the upcoming infrastructure development projects; the ongoing safe city initiatives; the retail and industrial expansions; utility; hospital and educational security and the rapidly expanding residential and commercial developments.

Please mark in your calendars the dates of Secutech Thailand 2019: 28th -31st October 2019, so that you may join us in what we hope will be master the growing vertical markets of smart and safe city developments in Thailand.

A handwritten signature in blue ink, appearing to be "Wasawat Kritsiriteeraphak".

---

**Mr. Wasawat Kritsiriteeraphak**

President of The Building Inspectors Association (BSA)

## Building Systems Technology Club (BSTC)

On behalf of Building Systems Technology Club (BSTC), we look forward to welcoming you to the Secutech Thailand 2019, which is held on 28<sup>th</sup> – 31<sup>st</sup> October 2019, at Bangkok International Trade and Exhibition Center (BITEC), Bangkok, Thailand. Bringing “smart” into security solutions as a comprehensive sourcing platform dedicated into security market in Thailand.

In the fields of Building Systems Technology, new solutions keep evolving all the time. We need to work together and learn from each other. To fulfilled our objective, which is being a learning community center of MATV & Digital Systems, IT & IoT Solutions, Network & WiFi Solutions and Security Solutions that provide the most cost effective approach to the design and the deployment of building technology systems. As one of the main aspects of a smart city is the construction of efficient buildings. We believe that you will realize through building your network and community, learning about new technologies, advancing your career through engaging in the many opportunities provided to meet potential future supervisors in this exhibition.

Mark your calendar and join us from 28<sup>th</sup> – 31<sup>st</sup> October 2019 in Thailand at Secutech Thailand 2019.

A handwritten signature in blue ink, appearing to read "Utain Chaiyos".

---

**Mr. Utain Chaiyos**

President of Building Systems Technology Club (BSTC)

## Fire And Rescue Association (FARA)

On behalf of Fire And Rescue Association (FARA), we look forward to welcoming you to Secutech Thailand 2019, which is held on 28<sup>th</sup> – 31<sup>st</sup> October 2019, at Bangkok International Trade and Exhibition Center (BITEC), Bangkok, Thailand. To present leading theme zones, including professional security, smart home, smart retail, smart and safe city, Fire & Safety and disaster prevention, providing the professionals the grandest trade fair to tap into the latest security market trends in Thailand.

The Fire and Rescue Association is a non-governmental, non-profit organization with activities devoted to providing knowledge and to train instructors in fire-fighting service, rescue service, emergency medical service and public safety service.

The government's Thailand 4.0 initiatives help to launch major developmental projects for various sectors, increasing the need for implementation of quality fire & safety products and solutions. Smart Cities need to also inherently be Safe Cities and Buildings. Most of our upcoming cities have high rises and dense concentration of buildings, making it even more essential to effectively address any type of fire situation to minimize and contain any loss of life and property.

Lastly, we look forward to welcome you to this exciting International Workshop on Asian Rescue Simulation and to meeting all of you in person in October in Bangkok. We do hope that you will join us in what promised to be a fruitful workshop!

A handwritten signature in black ink that reads 'Tom Kanathat C.'.

---

**TOM Kanathat Chantirsiri**

Chartered President of Fire And Rescue Association (FARA)

### Home Builder Association (HBA)

On behalf Home Builder Association (HBA), it is a pleasure to invite you to join us for Secutech Thailand 2019. As leading security, Fire & Safety and smart building & home trade fair in Thailand and Southeast Asia, offers the ideal platform to connect with industry professionals in the region to share the most comprehensive technologies in the market.

From the recovery situation of the economic crisis, the significant indicator could inevitably be the real estate sector which could also revive the heartbeat of national economy once again. Despite economic shocks, the home building service which is part of the real estate sector, has always been a robust industry and played significant role.

There is always a critical population within the market that desires to construct homes in their own land. This is less dynamic than real estate or housing development due to financial and saving disciplines. The value of home building has annually reached a Billion Baht, not to mention about the value of home building from other minor contractors which could total up to Ten Billion Baht per year. However, it is undeniable that there are both major and minor entrepreneurs that need a focal point to act as a business representative and coordinate with related government agencies or other business sectors. There is a need for an epicenter to facilitate social networks and help sustain the sector's credibility and reliability.

This was the rationale for the establishment of the "Home Builder Association", Since 2004, it has been aiming to act as a center for cooperation among home building entrepreneurs and to operate various missions aiming to constantly improve home building services in the country.

As Thailand's increase emphasis in automation and connectivity for residential sector brings new technologies to home owners while aging population raises the demand for better assisted living environment. We look forward to further strengthening and expanding these relationships as we welcome you to engage with us at Secutech Thailand 2019.

A handwritten signature in blue ink, reading 'ศิริพร สิงหารุ่น'.

**Siriporn Singharun**

President of Home Builder Association (HBA)

## Hotels & Buildings Chief Engineering's Association

On behalf of Hotels & Buildings Chief Engineering's Association, I would like to welcome you to Secutech Thailand 2019 , at BITEC , Bangkok. This show will combine engineers, system integrators, who are in security, security systems, smart home, fire & safety, info security and disaster prevention sectors.

Hotels & Buildings Chief Engineering's Association is an Engineers Collection of Buildings Chief Engineering's for Hotel in Thailand together. To Consultation, Pass on Engineer knowledge and Experience for Engineering in Club to Develop Organization to had more Effective to Improve Knowledge Capability of Member. Hotels & Buildings Chief Engineering's Association is proud to Partnered with Secutech Thailand 2019.

Secutech Thailand 2019 is the event for the region's most important security and Fire & Safety exhibition. Will also feature with a networking opportunity, Conference and Seminar from the Expert of Security, Fire & Safety. We hope to repay your kindness in full.

A handwritten signature in blue ink, reading "Annit Utsaha".

---

**Mr. Annit Utsaha**

President of Hotels & Buildings Chief Engineering's Association

## Thai Intelligent CCTV Association (iCA)

On behalf of Thai Intelligent CCTV Association (iCA), I would like to congratulate the organizers for the success of the Secutech Thailand 2019. It is always an honor to join this prestigious event and I do look forward to updating myself with the current trends and technology from speakers and exhibitors. Thai Intelligent CCTV Association was established in 2018 to promote and support the CCTV Analytics development and become a reliable platform to create innovative solutions as well as to provide insightful knowledge to the general public with our members' expertise.

This year, the Secutech Thailand 2019 comprises of several sub-themes; such as smart policing , smart transportation , smart factory and smart campus. I am certain that this would facilitate you in learning new technology to improve your business and work assignments as well as to find the most suitable solutions to apply to your business requirements.

We look forward to welcoming you at our booth during October 28<sup>th</sup> – 31<sup>st</sup> October 2019 at Bangkok International Trade and Exhibition Center (BITEC).

I wish you would enjoy visiting the fair and hope that it will meet all your expectations.

A handwritten signature in blue ink, appearing to read 'Thitapha'.

**Dr. Thitapha Smitinont**

President of Thai Intelligent CCTV Association (iCA),  
Executive Vice President, NSTDA

## Thai Mechanical and Electrical Consulting Engineer Association (MECT)

On behalf of MECT, I would like to welcome you to the Secutech Thailand 2019 at Bangkok International Trade and Exhibition Center (BITEC), Bangkok on October 28th – 31st, 2019. The event will feature showcase of latest security technologies, smart home, and fire protection. This is the best opportunity for the visitors or companies to meet with industry partners and customers for business negotiation in the latest solutions and innovations.

In addition, MECT offers a training on CCTV System Design and Fire & Safety for visitors of this event. Thai Mechanical and Electrical Consulting Engineer Association or MECT was established since 1998 to assist advancing the knowledge, understanding, and practice of engineering in both mechanical and electrical fields. MECT association is also the center of information for members to support and promote professional learning together with safeguarding benefits of professional practice. I hope all visitors will find the event valuable and beneficial from networking with other industries in the fields, meeting new markets and opportunities, and learning the latest trends and innovations in both advanced and security technologies.

A handwritten signature in blue ink, appearing to read 'Mr. Pichaya Chantranuwat'.

---

### Mr. Pichaya Chantranuwat

President of Thai Mechanical and Electrical Consulting Engineer Association (MECT)

## Thai Security Association (TSA)

On behalf of Thai Security Association (TSA), I would like to welcome all participants to the leading security, Fire & Safety and smart building & home trade fair in Thailand and Southeast Asia, Secutech Thailand 2019, 28th – 31st October 2019, at BITEC , Bangkok.

Thai Security Association (TSA) was established since 2012. The manufacturer and distributor of security system have seen a significant of security business. In addition, security business is also essential to help achieve social peace and more stability. Therefore, they gathered for founders TSA as a common goal to enhance security business success. Standardizing to security business and encourage further development to participate with various agencies of government. Moreover, it's including offer knowledge and technologies of security system to both TSA's members and other interested persons.

I look forward to the important opportunity to learn and network with professionals in this international gathering to learn about the latest trends and technologies today.

A handwritten signature in blue ink, appearing to read 'Tony Yang', written over a horizontal line.

**Mr. Tony Yang**

President of Thai Security Association (TSA)

# SHOW INTRODUCTION

## **secutech** THAILAND

Thailand has been experiencing a fast increase in economic development over the last few years and it does not appear to be slowing down. The fast development also sees a rise in demand for a connected smart city using IoT and AI to increase security, safety and general well-being. Secutech Thailand is the premier platform in security, Fire & Safety and smart building & home for smart city development in Thailand. Industry professionals such as distributors, system integrators and solution providers will be able to meet their needs with the wide range of companies as well as participate in engaging seminars to learn about the latest trends.

SMALiving, the evolution of SMAhome, aiming to provide expanding solution to smart buildings, smart factories and smart homes. The focus will be bringing automation and connectivity to help further enhance different sector's efficiency and operations. SMALiving will be connecting technology developers and distributors with the industry professionals in Thailand.

## **fire & safety** powered by Secutech Thailand

Fire & Safety solutions and applications has always been one of the most important agenda for country development and government policy, in order to provide people a secure and safer living condition. Fire & Safety, powered by Secutech Thailand, is organized concurrently with Secutech series in India, Taipei, Vietnam and Thailand as a prominent business hub for the experts and professionals to present their latest vertical solutions and innovations. With great support from both local and regional government officials and associations, Fire & Safety is the leading events of its kind in Asia.

# SHOW INTRODUCTION

## Country Pavilions:

### Singapore Pavilion

Exhibiting for the second time, Singapore Pavilion will be bringing 6 companies to showcase innovative products for smart city developments, joining the show this year includes Fire Fighting Systems, Hexcel Solutions, ITS Integration System, NewDVR(s), Salto Systems Asia, and Ubergard. The technologies showcasing from the pavilion will have a range of smart technologies to fire safety protection. The advanced products will consist of AI intercom systems, building management systems, mobile access control, and Fire & Safety simulation just to name a few.

### Korea Fire Institute (KFI) Pavilion (NEW)

The Korea Fire Institute (KFI) is a well-established Fire & Safety institution in South Korea, helping Fire & Safety companies to receive proper certification and being the bridge connecting domestic Fire & Safety companies to overseas markets. Exhibiting brands will include Dae Myung, Forttec, Global ENP, Intech, Jinwoosmc, Paratech, Rezontech, Shinjeong Development, Shinwoo Electronics, and Youngjin Flex. A wide range of Fire & Safety technologies will be showcased such as flame detectors, sprinkler systems, and alarms systems to fire trucks, barometric dampers, and fire extinguishers.

### Zhejiang Smart City Pavilion (NEW)

Secutech Thailand debuts the collaboration with Zhejiang International Trade Exhibition in 2019 with the Zhejiang Smart City Pavilion. The pavilion will be bringing more than 50 Zhejiang based innovators to share advanced technologies in the security, fire safety, intelligent building, lighting, smart home and many more. Returning brands in the security and surveillance such as Hikvision and Dahua will display AI enabled technologies to help optimise the facility management of buildings, factories and enterprise sectors. Newcomers such as Holley International, Tuya Information Technology, Broadlink Technology will feature solar light, smart meter, electronic locks, IoT platforms and other smart devices to enhance each sector.

### Taiwan Pavilion (NEW)

Debating at the fair this year will be the inclusion of Taiwan Pavilion. The area will contain Taiwanese based companies showcasing security, Fire & Safety, smart building & home, and smart factory products and solutions. Companies exhibiting includes Sheng Yi Tech & Analytics, Tashi Smartech, Blue Eagle (Polison), Safe Fire Protection Equipment, Z-Com, Ardorus Networks Corporation, Twoway Communications, Hi-Power, Network Optix, and International Carbide Technology.

# SHOW INTRODUCTION

## Onsite programs:

### Business Matching Sessions

The 1-on-1 Business Matching Session will give visitors the opportunity to meet with exhibitors individually based on their business background and products of interests.

Date: 29th October

Part 1 Time: 10:45 - 11:30

Part 2 Time: 14:00 - 15:00

Location: Hall 104 Stage

### Business Matching Tours

Visitor will be able to explore business opportunities with 6 exhibitors from 280 brands and 21 product groups. Each meeting will take 5 to 10 mins with a total duration of 40 to 60 minutes.

Service hours:

30 October 2019 09:00 – 17:30

31 October 2019 09:00 – 17:00

Location: VIP Registration & Business Matching Service Counter

### Smart Factory Conference

Smart factories has become a hot topic in Thailand, with manufacturers realizing the importance of technology to enhance efficiency, safety and overall competitiveness.

Designed for system integrators, distributors, project specifiers and industrial zone factory owners/management/decision makers, the conference will cover important topics for factories moving forward into Industry 4.0:

- Factory digitalization
- Security and access control management for modern industrial facilities
- Fire & Safety regulations and must-knows
- Disaster prevention and management

Date: 30th October 2019

Time: 10:00 – 16:00

Location: Hall 104 Stage

# SEMINAR

## Asian Rescue Simulation 2019 agenda

Date/Time: 30 <sup>th</sup> October 2019 at 09:30 – 16:00 Venue: Hall 105 Stage	
Time	Event
9:30	Registration
10:00	Welcome Remark by FARA President - Mr Tom Kanathat C. - Mr. Andy Maniam
10:30	Rescue Simulation by FARA
12:00	End of the ARS Programme
13:00	Visit Secutech Thailand Exhibition
15:00	Presenting Certificate

/ Official Department  
Product Category: Associations, Security - Others

The Association of Small & Medium Enterprises (ASME) is a not-for-profit organisation established in 1986 for entrepreneurs, by entrepreneurs. With wide-ranging services and programmes, ASME strives to equip member SMEs with the business knowledge and market opportunities to help them grow their businesses. ASME, as the champion of a pro-enterprise Singapore, bridges the public and the private sectors to promote a more conducive business environment which facilitates the start-up, growth and development of a larger pool of SMEs. The two ASME flagship awards – The Entrepreneur of the Year Award and Singapore Prestige Brand Award – are in recognition of SMEs' successes. ASME will continue to roll out new SME-relevant programmes to enhance its position as THE business association For Entrepreneurs, By Entrepreneurs.

Website: [www.cetcthz.com](http://www.cetcthz.com)  
Business Nature: Manufacturer  
Product Category: Security - Others

Brainware Terahertz Information Technology Co., Ltd. is the subsidiary of China Electronic Technology Group Corporation (CETC), specializing in R&D, manufacture, sales and service of terahertz series body detector for security check. Brainware Terahertz insists on self-innovation and mastering core technologies in order to improve security check experience. As Brainware Terahertz's primary product, TeraSnap series body detector is a revolutionary security check solution for mass transit. It is able to detect the concealed objects hidden under clothing such as metal or plastic weapons, explosives, liquids, gels, drugs, currency, etc. With the features of radiation free, real-time imaging, contactless, non-invasive and high throughput, it is safer, more reliable, more decent and more efficient than traditional methods. It can be used for various scenarios, including anti-terrorism, airport, metro station, train station, custom control, loss prevention, important event, etc.

日立楼宇技术(广州)有限公司 | 基于云服务的楼宇管理统一-管理  
BIVALE楼宇综合管理解决方案

通过云服务综合管理安防、能源、设备。新时代的设施管理解决方案。

### 「BIVALE」诞生了。

通过云服务,「BIVALE」将一系列线下楼宇中分散的设备、能源和设备管理业务进行整合:  
对于具有多个楼宇的企业,「BIVALE」可以跨网络实现一次化管理;  
日本将其在IT领域的先进技术与楼宇管理方面的丰富经验相结合,实现设备利用效率和能源效率的提升。

让管理更综合、更高效!  
让楼宇更节能、更安心、更方便!

可以实现能源消耗管理、设备维护、设备管理业务和工作量,助力于  
提高能效,安全运营,降低运营成本,提高运营效率。

24 小时 365 天的支持体制。

日立客服中心随时提供客户技术支持,紧急情况下,可派遣  
专业的服务人员到现场提供服务,确保客户业务连续运行。

打造更加节能、更加安心更加方便的楼宇

### 「BIVALE」提供3大“价值”

1

只需要打开的手提电脑,管理就是这么简单!

管理公司、租户及拥有多个楼宇的企业可以在任何地方实施管理。  
因为基于云,所以不仅可以通过手提电脑,还可以通过手机和平板电脑  
随时随地管理,而且操作简单。

2

因为基于云,所以其导入很简单!

因为基于云,所以其导入很简单。  
日立客服中心提供多种部署方案,不需要专用设备,服务简单。

业主、管理公司 拥有多个楼宇的企业  
多个楼宇管理公司管理 在多个楼宇内部署管理  
管理公司 总公司可对多个楼宇统一管理  
多个楼宇管理公司管理 多个楼宇内部署管理

3

追加也简单,服务内容可以不断扩展!

因为基于云管理,所以可以扩展、安全设施的任何电力设施。  
例如,如果从能源管理开始,可以扩展到“楼宇”管理,可以扩展能源、  
设备管理、安全、未来,也可以扩展到“楼宇”管理,满足“楼宇”管理之  
外,实现安全运营“管理”等需求。

获得日本“广域2019年度最佳设施管理解决方案”项目

申报项目:

1. 301002 智能楼宇设施管理  
2. 301003 智能楼宇设施管理

3. 301004 智能楼宇设施管理

申报项目:

1. 一种楼宇设施管理方法、装置、设备、系统、存储介质

2. 一种楼宇设施管理方法、装置、设备、系统、存储介质

Power	12V DC		
Product size	400mm x 300mm x 130mm		

## Features

-  **The world's fastest fingerprint readers**  
 1000 scans per second (FPS) in 10 seconds  
 Can store up to 100,000 users
-  **Auto & Gesture Fingerprint Recognition**  
 Can read fingerprints without any assistance
-  **1:1000000:1 FPR**  
 1:100,000,000:1 FPR and 1000 scans per second (FPS)  
 1000 scans per second (FPS) in 10 seconds
-  **One Design**  
 Designed for easy installation in desktop systems
-  **Automatic fingerprint recognition**  
 Can read fingerprints without any assistance, suitable for guest login
-  **1000000:1 FPR**  
 1:100,000,000:1 FPR and 1000 scans per second (FPS)
-  **1000000:1 FPR**  
 1:100,000,000:1 FPR and 1000 scans per second (FPS)
-  **Language & Multiple language**  
 Can support multiple languages
-  **Store & Clean up of 1000000:1 FPR**  
 Can store & clean up 1000000:1 FPR (1000 scans per second) and store in all situations
-  **Configurable Access control**

#### System Layout

- Safe, secure, and economical access control system
- Any law violations can be integrated into existing access control system
- Securing facilities, reducing costs via time management

Paratech was established in 1973 with the corporate philosophy of "company that contributes to human society by protecting lives and property against fire." For the past 45 years, Paratech has been continuously making efforts on high quality products, improvement of employee's quality of life, more returns to shareholders, adding new business, and the vision of 'the world leading company in the firefighting industry'. Despite very difficult business environment under the financial crises at the end of 1997 and 2007, Paratech continuously pushed forward with new product development, facility investment, acquisition of overseas certificates to enhance quality and expedite export, service quality enhancement, and continuous changes and innovation activities. Such efforts resulted in the acquisition of the Presidential Industrial Service Medal, Tin Tower Order of Industrial Service Merit, Silver Tower Order of Industrial Service Merit, Korea Safety Grand Prize, Presidential Award in the facilities management section at the National Quality Management Convention, and Prime Minister's Citation in acknowledgement of the merit for the advancement of the firefighting industry. Paratech will continue to make great efforts to become the most competitive company in the world through the management policy of "Build the corporate culture under the solid belief, See things in a new way, and changing."

The brand name SiMPNiC is originated from the concept of “simple” and “technology”, aiming to simplify the complexity both in the smart home IoT technology and in every sphere of life. At the same time, it leverages the homophony from “symphony”, hoping to assist the users in building a smart and comfortable living environment and gracefully controlling all types of connected devices with SiMPNiC solution like conducting a symphony.

Smart Water Management

The purpose of the Taiwan Association of Disaster Prevention Industry (TADPI) is to engage and integrate the domestic and International disaster prevention related industry chain actively. TADPI attempted to expand the demand and create the new markets worldwide, and promote the disaster prevention technologies that belong to our members. Officially founded on 31 March 2013, the TADPI coordinated organizations and experts in different field and technology related to disaster prevention, such as hazard modeling and simulation, engineering practices, risk management and insurance, geospatial information, monitoring and communications, security and safety, and firefighting. Through the promotion of the relevant businesses, public awareness and adaptability can be strengthened when facing a catastrophe. Furthermore, advocating the strategy of climate change adaptation, formulation of a Business Continuity Plan (BCP/BCM) for the cooperation, and to facilitate and building resilient and sustainable societies worldwide. That should be the ultimate goal of TADPI.
